

# Enabling the practice of whole person health

Our platform offers providers one place to optimize, dispense, and manage personalized treatment plans with healthcare's best supplements.

## How Fullscript empowers medical practices

### Optimal care delivery

Seamless treatment planning tool embedded in the providers' workflow with evidence-based recommendations to optimize patient outcomes. Integration with 25+ EHRs eliminates administrative burden.

### Highest quality products

Differentiated catalog of professional-grade products curated by our in-house Medical Advisory Team. Industry leading, proprietary quality program vets products for purity, potency, safety, and clinical efficacy.

### Adherence solutions

Intuitive tech automates treatment plan adherence, simplifies patient engagement, and drives positive health outcomes that keep patients on track with health and wellness goals.

### Patient outcomes

Personalized treatment plans and tools for healthy habits accessible online from anywhere — offering convenient wellness journeys and shortened time to therapy, with healthcare's best products delivered to patients' doors.

**UCI Health**

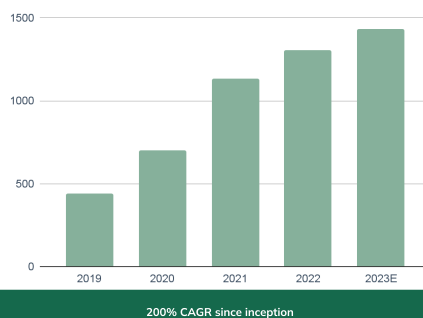

## Case Study: Automating adherence with large health systems

A leading health system and medical center offering primary, specialized, and virtual care partnered with Fullscript to expand treatment plan delivery, elevate patient outcomes, and deliver high-quality supplements and wellness products to patients.

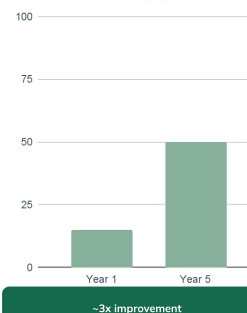

Since transitioning to Fullscript, they have been able to:

- **Increase patient adherence by ~3x** in just five years
- **Offer a wider range of supplements** and wellness products to patients
- **Grow their practice** with efficient treatment planning and sustainable patient engagement
